# KUNDAN PAWAR

## Senior Frontend / Full Stack Developer

📞 +49 15237367909   @ kundanpawar2987@gmail.com   🔗 LinkedIn   🔗 website   📍 Berlin, Germany

## SUMMARY

Senior frontend and full stack developer with over 12 years of experience, including 6 years specializing in cutting-edge frontend technologies. Expert in building scalable, high-performance applications using React, TypeScript, Node.js, and .NET within enterprise environments. Demonstrated impact in delivering micro-frontend solutions, automating CI/CD pipelines, and deploying AWS serverless architectures that increased application efficiency and reliability. Committed to clean code principles, robust automated testing, and mentoring teams to achieve technical excellence.

## EXPERIENCE

### Senior Frontend Developer

**Accenture**

📅 03/2022 - Present   📍 Berlin, Germany

Global professional services company

- Migrated legacy AEM components to headless CMS, enhancing performance by 40%
- Built persistent micro-frontend UI architecture using React, Redux, and Feature Apps, for real-time vehicle customization experience.
- Developed state tracking logic across multistep journeys using Redux
- Maintained CI/CD pipelines and managed AWS S3 containers for frontend assets
- Created Lambda functions to dynamically generate PDFs for quotations and vehicle details
- Test automation strategy using Jest and React Testing Library. Implement E2E and unit test coverage using Cypress and Jest
- Integrated real-time pricing APIs with secure backend services

### Full Stack Developer

**Go Deed Inc**

📅 01/2022 - 02/2022   📍 Remote

Remote technology company

- Delivered donation platform across {2} platforms, boosting user engagement by {30%}
- Built scalable infrastructure handling 10,000+ concurrent users
- Integrated CI/CD pipelines for rapid deployment with Docker and GitHub Actions
- Established reusable test architecture with Jest for all components

### Senior Consultant

**Infinity Share GmbH**

📅 07/2020 - 12/2021   📍 Berlin, Germany

Consulting company specializing in technology solutions

- Delivered full-stack inventory solution with responsive React frontend and C# backend
- Managed and mentored a 2-member dev team, driving project delivery
- Created advanced dynamic forms for real-time inventory data updates
- Wrote automated unit tests ensuring >95% test coverage

### Software Developer

**ICT Solutions AG**

📅 01/2019 - 05/2020   📍 Berlin, Germany

Technology solutions provider

- Built and maintained enterprise intranet apps with React and .NET Core
- Developed internal component libraries used across 5+ internal platforms
- Led the design and implementation of performance testing strategies
- Agile delivery using SCRUM and cross-functional collaboration

## SKILLS

AEM   Agile   AWS   AWS Lambda

Azure   Bootstrap   C#   Cypress

Docker   E2E   ES6   GitHub   GraphQL

HTML   Intranet   JavaScript   Jest

MongoDB   Next.js   React   Redux

REST   SASS   Scrum   Serverless

SharePoint   SQL   TypeScript

Unit Testing   GitHub Actions   NET Core

Node.js   Express.js

## KEY ACHIEVEMENTS

💡 **Performance Optimization**
Reduced app load times by 40% via optimization & AEM decoupling

💬 **Testing Excellence**
Implemented 95%+ automated test coverage using Jest & Cypress

⭐ **Innovative Tool Development**
Built AWS Lambda-based PDF generation tool for custom vehicle quotes

🏆 **Offline Solution Development**
Delivered fully offline workforce planning tool using React and D3.js

💡 **Mentorship and Leadership**
Mentored 10+ junior developers and introduced clean coding practices

⚡ **Deployment Efficiency**
Optimized CI/CD pipelines for faster and error-free deployments

## STRENGTHS

⭐ **Technical Depth**
Hands-on expertise across frontend, backend, and cloud stacks

💬 **Collaboration**
Proven success with international, Agile-based delivery teams

# EXPERIENCE

## NET / SharePoint Developer

**[Previous Company]**

📅 01/2012 - 01/2019  📍 India

Technology and consulting firm specializing in SharePoint solutions

- Specialized in SharePoint migrations and enterprise customization across multiple versions
- Successfully led end-to-end migrations: SharePoint 2010 → 2013 → 2016 → Online (M365) with zero data loss
- Developed robust intranet and enterprise applications using C#, .NET Framework, and SharePoint Server APIs
- Transitioned legacy apps to modern web technologies using React and SPFx (SharePoint Framework)
- Built custom APIs using .NET Core to integrate SharePoint with external business systems
- Collaborated with infrastructure teams to optimize deployment, permissions, and governance across SharePoint environments

# EDUCATION

## Master of Computer Science

**Pune University**

📅 01/2010 - 01/2010  📍 Maharashtra, India
